TRUTH IN SAVINGS DISCLOSURES

Except as specifically described, the following disclosures apply to all of the accounts:

- 1. Rate Information.** The Dividend Rate and Annual Percentage Yield on your accounts are set forth on the reverse side. The Annual Percentage Yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the Dividend Rate and frequency of compounding for an annual period. For all dividend bearing accounts, the Dividend Rate may change monthly as determined by the Board of Directors. Peak Checking Account is a tiered rate account. The Dividend Rate or Annual Percentage Yield applicable to each account depends on the balance ranges set forth on the reverse side. The Dividend Rate for each range will only apply to the balance within that range.
- 2. Nature of Dividends.** Dividends are paid from current income and available earnings after required transfers to reserves at the end of a dividend period. The Dividend Rate and Annual Percentage Yield set forth on the reverse side were effective on the last Dividend Declaration Date for the applicable dividend period.
- 3. Compounding and Crediting.** For dividend bearing accounts, dividends will be compounded and credited monthly. The Dividend Period begins on the first calendar day of the month and ends on the last calendar day of the month.
- 4. Accrual of Dividends.** Dividends will begin to accrue on cash deposits on the business day you make the deposit to your account. Dividends will begin to accrue on noncash deposits (e.g. checks) on the business day you make the deposit to your account. For all dividend bearing accounts, if you close your account before accrued dividends are credited, accrued dividends will not be paid.
- 5. Balance Information.** The minimum balance required to open each account is set forth on the reverse side. The minimum monthly balance required to avoid a service fee or to obtain the stated Annual Percentage Yield set forth on the reverse side. For Dividend, Senior and Peak Checking accounts, the minimum daily balance required to obtain the stated Annual Percentage Yield is set forth on the reverse side. The minimum required balance and dividends are calculated by the daily balance method, which applies a daily periodic rate to the principal in the account each day. For Dividend Checking Accounts, there is a minimum average daily balance required to avoid a service fee. The average daily balance is determined by adding the full amount of principal in the account for each day of the period and dividing that figure by the number of days in the period. For business checking, the transaction fee is imposed for all transactions over 75 each month, regardless of balance.
- 6. Account Requirements & Limitations.** To receive the higher dividend rate for Peak Checking, the account must be enrolled in eStatements and must have a payroll, social security or pension direct deposit each month. All account requirements must be met by the last day of the month to qualify for the higher rate. The cycle for each month begins on the first day of each month.
- 7. New Account Incentives.** New account incentives received by the member exceeding \$10 are subject to IRS 1099-INT reporting.
- 8. Other Information.** Senior Checking is available to members age 55 or older. One Peak Checking account per member.
